

University Undergraduate Core Committee

Meeting Minutes

4) Discussion: Capacity building for Cura Personalis 1 in launch year

Discussion: "Locked" versus "Open" Ignite Seminars

Also, I am talking about this to the Core for Ignite seminar also. I will be talking about the numbers of Ignite seminar sections for 2022-23 that are open (can be enrolled in by any student from any college / school) vs. "locked" (only available to students in particular programs). Right now, we are at approximately 60% open and 40% locked. We knew that this was likely going to happen but we did not fully grasp just how many sections would be restricted. We are at a tipping point here; more "locked" sections and we jeopardize the vision of the Ignite seminar and the role it plays in the SLU Core / Undergraduate experience. We will be talking next about this to CADD, Enrollment and Retention, and individual programs.

Discussion: Mechanism for appointment / reappointment of:

Undergraduate Core Curricular Fellows (if a student wants to serve a second year)
